Subject: RE: Jefferson Site and Introductions

Jim,
Thanks for updating everyone about my role on this site.

Doug,
We have a fair amount of data about this site. This may seem a little forward, but, I am curious if you had a potential path forward.....meaning what you think should be done regarding site remediation if anything (in situ thermal treatment of soils?, dig and haul soils? pump and treat groundwater? monitored natural attenuation? environmental covenant restricting property use if soil levels are above residential clean-up levels? environmental covenant restricting groundwater use if levels remain above MCLs? Do you plan to sell or keep the property? etc. An answer will not lock you in on any specific path. I just wanted to see what you all are thinking as an end goal. And do my best to move this project forward and to an end.

Hi, Brian.

Thanks for reaching out to me today to discuss your role as the new EPA project manager for the Electrolux Jefferson, Iowa facility. The Electrolux team includes the following individuals:

Andrew Stienecker - Assistant General Counsel – Electrolux

Doug Arnold – Alston & Bird LLP

Jim Peace and Alistair Macdonald - Golder Associates

Doug Ucci – Quantum Management Group, Inc.

Please contact Doug Arnold directly with any questions concerning the site. Doug's direct telephone number is 404-881-7637.

Cheers,

Jim
